

D.D.INNOVATION

D.D.INNOVATION d.o.o.

Tvrtka D.D.INNOVATION nastala je u siječnju 2019. godine u Istri, točnije Brtonigli.

Tvrtka se bavi prodajom građevinskog alata i opreme. Specijalizirana u prodaji i kupnji robe, pružanju usluga u trgovini, zastupanje inozemnih tvrtki, obavljanje trgovačkog posredovanja na domaćem i inozemnom tržištu te usluge informacijskog društva.

Tvrtka nudi kompletan asortiman potrebnog alata za keramičare.

Nudimo vrhunsku kvalitetu proizvoda, brzu dostavu, odličnu suradnju te mogućnost količinskog popusta.

Poslujemo s više tvrtki diljem Europe - Austrija, Njemačka, Italija, Francuska i Slovenija.

4 LEVEL

4 LEVEL: već dobro poznat sustav nivelatora za sve vrste pločica s još boljom otpornošću, preciznošću i naravno kvalitetom.

Dizajniran za idealnu proporciju između brzine korištenja i jačine, zahvaljujući povećanju visine između jednog zupca i drugog.

Zadnja, ali ne i manje bitna stavka, dvostruka središnja rebra sprječavaju deformaciju bočnih stijenki kajle.

4 LEVEL: already well-known leveling system for all types of tiles with even better resistance, precision and of course quality. Designed for the ideal ratio between speed of use and strength, thanks to the increase in height between one tooth and the other.

Last but not least, double central ribs prevent deformation of the side walls of the wedge.

Služi kao zamjena za slomljeni nivelator 4LEVEL ili u slučajevima kada je potrebno dodatno izravnavanje. Postavlja se između dvije već pozicionirane pločice.

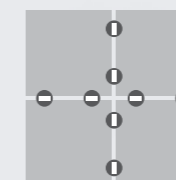

Serves as a replacement for a broken leveler 4LEVEL or in cases where is required additional leveling. It is placed between two already positioned tiles.

TIRAMISÙ the leveler

Tiramisù: sustav za izravnavanje svih vrsta podova i zidova obloženih keramikom ili drugom vrstom pločica koji se služi rotacijom oko vlastite osi. Zahvaljujući preciznom navoju moguće je spojiti donji sa gornjim dijelom:

→ donji dio koji čini podlogu postavlja se između pločica (**vijak**)

→ gornji dio u obliku šarafa koji služi za vrtnju oko donjeg dijela, odnosno vijka (**matica**)

Ovaj sustav nudi veći pritisak tijekom niveliranja (do 40 kg) bez napora te s mogućnošću odvrtanja u slučaju greške.

Tiramisù is a system for leveling all types of floors and walls covered with ceramics or some other type of tile that uses rotation around its own axis. Thanks to the precise thread it is possible to connect the upper with the lower part:

→ the lower part that forms the base is placed between the tiles (**screw**)

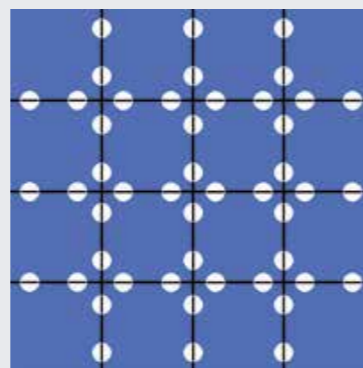

→ the upper part in the form of a screw used for rotation around the lower part, ie the screw (**nut**)

This system offers higher pressure during leveling (up to 40kg) without effort and with the possibility of unscrewing in case of error.

- Kutna brusilica na bateriju 18V i 6 brzina,
- Preciznost, kontrola, sloboda kretanja,
- kompatibilna s diskovima promjera 45 i 50 mm,
- prikladna za rezanje, uklanjanje srha, završnu obradu i poliranje metala, aluminija, keramike i cementa.

JAMSTVO 2 GODINE

Pakiranje sadrži:

- 1x brusilica,
- 2x baterija 18V,
- 1x disk ø45 mm za keramiku,
- 1x disk ø50 mm za keramiku,
- 2x disk ø50 mm za metal,
- 2x ključ za stezanje,
- adapteri i vijci.
